PROLOGUE

Sitting Bull College (SBC) Curriculum Committee decided in spring 2008 to implement an ongoing process of integrated planning and program review processes with linkages to resource allocation. This effort is a collaboration with the Assessment Committee, Institutional Research Office, administration, faculty, and staff.
INTRODUCTION

The program review process focuses on evaluation, planning and improvement to help serve students better. The Program Review process at Sitting Bull College is supervised by the Vice-President of Academics and provides a framework within which to review, evaluate, and formulate goals for each program. This process is an important component of institutional evaluation, planning, and resource allocation; therefore, the dialogue, constructive participation and cooperation of all members of the faculty, staff, and administration are encouraged.

Program Review is, by intent, an opportunity for members of the faculty, staff, and administration to review and strengthen their own programs to better serve students, rather than a mechanism for punitive scrutiny. Program review also provides a means for examining new programs for possible adoption.

Objectives

Program Evaluation, the first objective of Program Review at Sitting Bull College, is accomplished through a comprehensive, structured, documented, and periodic self-study of each program’s performance. Self-study is an opportunity to demonstrate good performance, to identify areas in need of development or revision, and to maintain and improve the quality and scope of instruction and services.

Program Planning is the second objective of Program Review at Sitting Bull College. It is accomplished through the development of a program plan, including both short-term and long-term goals. It includes evaluation of potential programs.

Linkages and Integration

Program Review is coordinated with the following processes:

1. **Accreditation**: The Program Review process addresses requirements included in the Higher Learning Commission standards for the systematic evaluation by the institution of the effectiveness of courses, programs, services, leadership, and use of resources.

2. **Educational Planning**: Planning documents that are prepared by each program through the Program Review process are integrated into the plan.

3. **Assessment Analysis**: Program review is supported by the documents prepared annually and submitted to the Assessment Committee. This facilitates utilization of assessment results.

4. **Budget Development**: Resource needs identified through the Program Review process are the basis for individual program budgets, facilities, and staffing proposals and guide the allocation of financial resources to these programs.

5. **Institutional Research**: Program Review is supported by research and integrates planning, evaluation, and resource allocation.
Responsibilities

Responsibilities are distributed as follows for the Program Review process:

1. Curriculum Committee: Creates the master Program Review Schedule, assigns programs to particular years in the Program Review cycle, coordinates annual Program Review training, and provides institutional support for Program Review. Evaluates and revises as necessary Program Review documents and requirements. Evaluates and reviews potential programs.

2. Division Head or Faculty of Record for the Program: Participates in Program Review, conducts program review meetings, drafts and edits Program Review Report, meets deadlines for submission of Program Review Report and Board Presentation.

3. Program Review Participants - (Program staff, faculty, and involved adjunct faculty): Attend program review meetings, review and provide research data, review assessment and planning recommendations, review/revise and approve/reject Program Review Report.

4. Institutional Research Office: Provides summary of satisfaction information collected by a variety of entities, provides enrollment data for all instructional divisions, receives, duplicates, and distributes to the Vice-President of Academics and the President the completed Program Review Reports.

5. Assessment Committee: Advises and assists programs in the completion of self-study and drafting of reports.
Annual Program Review Calendar for Existing Programs

Program Reviews are examined on a 5-year cycle* with one year reserved for the accreditation self-study. Programs subject to more frequent external reviews that include both self-evaluation and forecasting should notify the Curriculum Committee so that adjustments can be made to the requirements.

The review should result in a recommendation from the Curriculum Committee for appropriate action to be taken. Program reviews will include one of the following program recommendations:

- Maintain the Program
- Enhance the Program

In addition, all program reviews except those resulting in a recommendation to phase out a program should result in specific recommendations that can improve a program and ensure that it more effectively and efficiently meets the needs of the students and Sitting Bull College’s attainment of its goals.

The final program continuance recommendations will be based on the following criteria:
