Capacity Grants

- **Equity**, The 1994 Land-Grants use Equity to support faculty who develop classes and degree programs that teach science and math to Native Americans. The programs focus on agriculture, natural resources and social sciences. \$3,439,000
- **Extension**, The Tribal College Extension grant program allows the 1994 Land-Grants to create extension offices for their reservation communities. Each extension office works with reservation communities to build programs that target local needs. \$6,262,160

Competitive Grants

- **Extension-Special Emphasis**, The Tribal College Extension grant program allows the 1994 Land-Grants to create extension offices for their reservation communities. Each extension office works with reservation communities to build programs that target local needs.
- **Research**, The Research Grant Program serves to address the questions that matter to tribal communities such as protecting reservation forests or monitoring water quality. \$1,675,091

Endowment

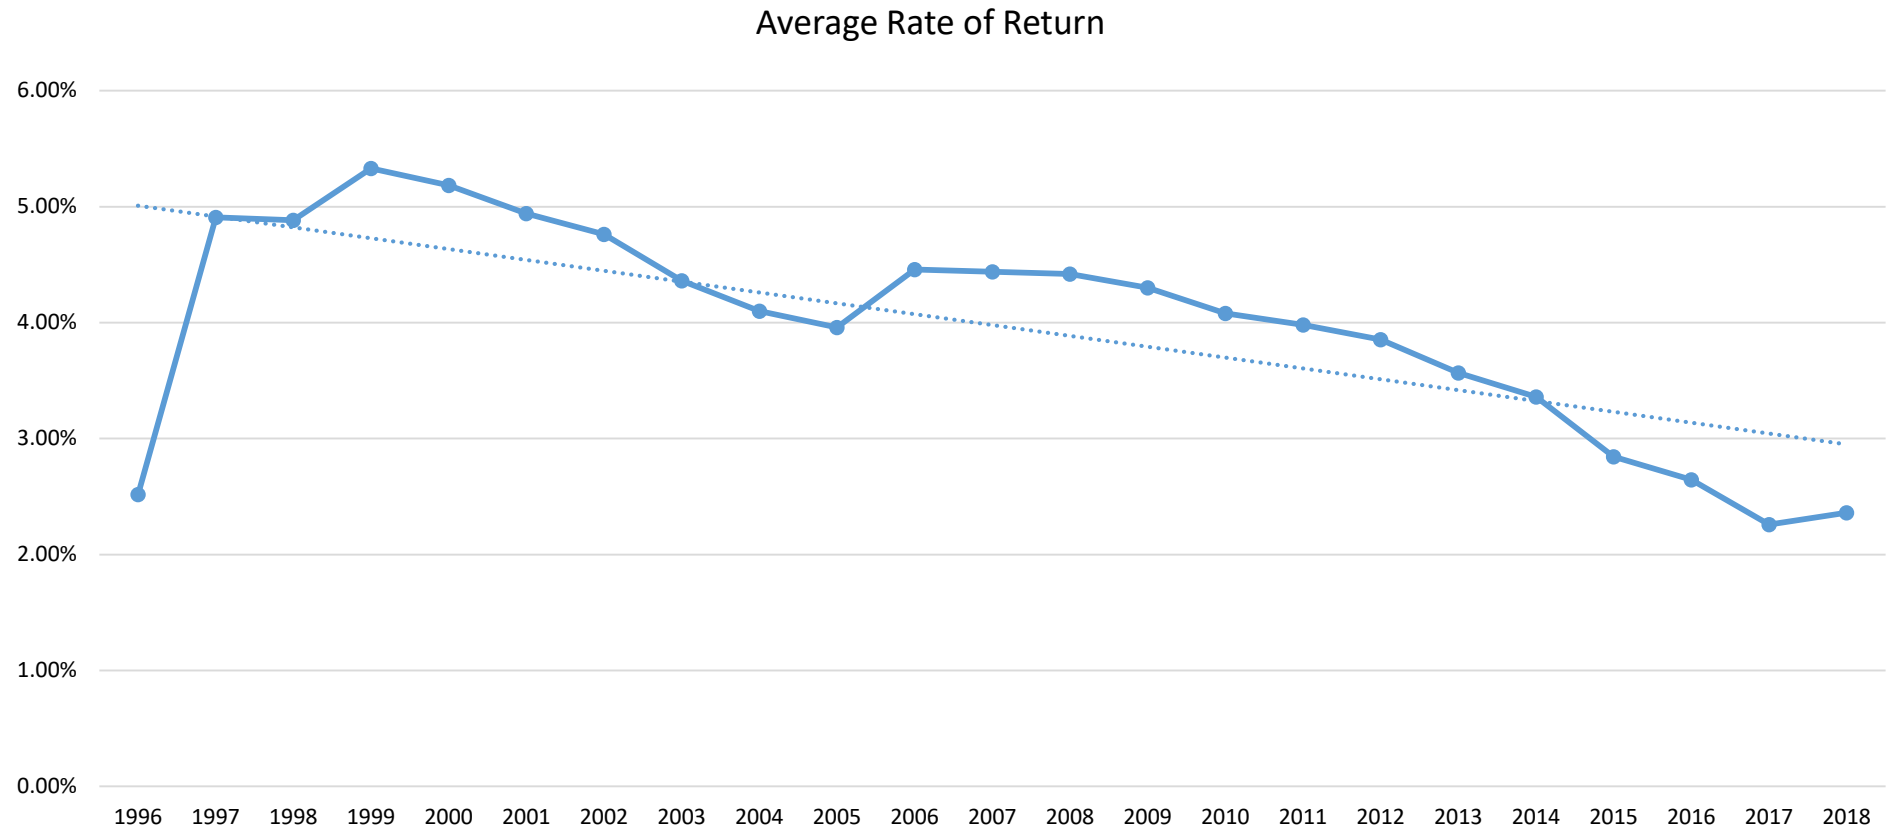

- The Endowment fund is an interest-bearing account. Congress appropriates funding for this account annually. Each 1994 Land-Grant University receives an annual funding allotment based in part on the previous year's interest earned and the number of American Indian students attending the institution.
- The 1994 Land-Grant presidents can use these funds at their discretion. They may restore or upgrade infrastructure, supplement other NIFA grants, or keep the funding indefinitely as a resource to address future or unanticipated needs.
